

CHANGE THE INDUSTRY

The aim of this event is to make your theoretical knowledge applicable in industrial problems and get the best solution for that problem. Whatever may be the industrial problem, getting feasible and optimum solution is important. Your amazing idea may change your life in future when you enter into industry. You may build an industry with such an idea. Let's try it now itself and prove you are able to change the industrial sector by solving present problems facing by industries.

HOW IT WOULD BE:

The industrial problem and solution should be prepared and brought by the team members on the day of the event. Within twenty minutes span they should explain both problem and solution in clearly cut way in front of the judges. The best three among all teams will be selected and awarded.

RULES AND REGULATIONS:

- A team should have minimum of 2 and maximum of 3 members.
- The problem should be brought by your ownself. It may be the issue which you have seen directly in your life, in newspaper, or in magazine.
- The problem should be real and practically existing (related to industries only) and the solution should be feasible and real.
- It should not be just copied from internet or by any means but surfing for ideas is allowed.

VENUE:

Classrooms
